This was an excellent class! I've been in a church choir for years, but I've always had difficulty singing the correct musical notes, along with understanding the basic elements of treble & bass clefs! Dulais's class helped me immensely with these issues! If you take his class, you will learn the 8 step scales of music and the note placements on the 5 lines of music. I highly recommend this class to anyone who'd like to understand how to read music more precisely! What an awesome class & KUDOS to Dulais for teaching it! 😊👍

Dulais Rhys brings his tremendous scholarship and love to good use to examine the work of The Beatles. This is not a new endeavor; I attended many such lectures of Dr. Rhys both in person and on-line, and found them fascinating. Indeed, I seldom missed the opportunity. Dulais, in his humble manner, delves into musical theory in an engaging and accessible way. His delight and knowledge of the Fab Four is contagious. He is as apt as I am to spontaneously sing a Beatles hit.
